Week 00 Day 00: Topic of the day

More information about today's topic

First section

Some information about this section

Section 1 information

More information about this section's slides. Some example code:

```
x = runif(100L, 0, 1)
y = runif(100L, 0, 1)
```

You can let text appear on the slide sequentially.

- Bullet point 1

- Bullet point 2

Section 2 information

Some more information. From here you should be able to create your own lecture slides!

Note: This template is based partly on the original "Ninja Presentation" template from the Xaringan package.
